Course Description

- This course includes an introduction and discussion on the Chinese financial markets and financial institutions.
- It emphasizes understanding the operation, management, and regulation of financial markets and institutions in China.
- The main topics include "Introduction to China's Economy and Financial System," "Central Banking and Monetary Policy," "Financial Markets," "Financial Institutions," "Opening Up of China's Financial Sector," and so on.

Course Contents

- Part 1 Introduction
- Part 2 Central Banking & Monetary Policy
- Part 3 Financial Markets
- Part 4 Financial Institutions

Learning Objectives

- The main objectives of this course are to help students:
 - Gain a comprehensive understanding of the development history and current status of China's financial system.
 - Understand the issues present within China's financial system.
 - Master the correct methods for observing and analyzing financial problems in China.
 - Develop the capability to participate in financial practices in China.

Textbook

- Financial Markets and Institutions. By Saunders等《金融市场与机构（原书第6版）》桑德斯等著，出版社：机械工业出版社
- Financial Markets and Institutions. By Mishkin等《金融市场与金融机构（原书第7版）》米什金等著，出版社：机械工业出版社
- Mishkin, Frederic, The Economics of Money, Banking, and Financial Markets,（商学院版），2010年，人民出版社

Grading

- The maximum score for students in this course is 100.
- Course grades are determined by the following components:
 - Problem Sets (30%)
 - Final Project (50%)
 - Presentation (10%)
 - Participation (10%)

Problem Sets

- There will be TWO assignments throughout the course.
- The problem set is NOT a group assignment.
- Each assignment is due two weeks after it is handed out.
- Please submit the assignment to my and TA's email address BEFORE the class on/before the due date.
- Late assignments will be penalized 20% of the score, and assignments submitted one day late will be penalized 50% of the score. Assignments submitted more than two days late will not be accepted.

Final Project

- There will be ONE final project throughout the course.
- This is a GROUP project, and you need to form a group with 3-5 people, meaning each group should have 4-6 members.
- Late submission will be penalized 20% of the score, and project submitted one day late will be penalized 50% of the score. Project submitted more than two days late will not be accepted.
- A representative from each group will present the report in the final class.

Presentation

- ONE representative from each group will present the final project.
- The presentation should be conducted in the format of a thesis defense.
- You need to prepare and submit a PPT presentation file.
- Each group will have 10 minutes for the presentation, which should be approximately 10-15 slides.

Course Participation

- This course emphasizes student participation and sharing.
- Students are encouraged to actively share (raise) their experiences (questions) related to the course topics. Active participation in interactions with the instructor is highly encouraged.
- The teaching assistant or instructor will keep a record of the number of times students participate in Q&A, discussions, or sharing.
- The final participation score will be determined by the instructor based on these records and their impressions.
